Do you own a farm, acreage or recreational property with a water well? Did you know that a poorly maintained water well can put your water supply at risk of contamination and reduce your well yield? Learn what you can do to protect your well.

If you use your water well for household purposes, the key to ensuring your water supply is safe and secure is knowing how groundwater works, learning about your well and understanding how to properly maintain it.

Proper water well siting, construction and maintenance will help protect your well from biofouling and contamination, save you costly repairs and ensure your well water yields are sustained over many years.

This is a comprehensive workshop and during the session the presenters will cover:

- Understanding groundwater
- How your well works
- Finding and understanding your drilling report
- How to "draw your well"
- Water well problems
- Top 10 well enemies
- Shock chlorinating your well
- Taking and testing water samples
- Take home messages

This workshop starts promptly at 6:30 pm and goes to approx. 9:30 pm and includes a wealth of information, Q &A opportunities with presenters and take-home resources. Register today.

The Woodshed - John Wort Hannam and T Buckley

Date and Time: Saturday, November 30 8:00 pm - 11:00 pm

Address: 1/2 mile south of Highway 43 on range road 132, Demmitt, AB

Acclaimed roots songwriters John Wort Hannam and T. Buckley make up The Woodshed, a modern folk duo based in Alberta, whose name refers to the beginning of Buckley and Hannam's collaboration - woodshedding songs together during a residency at the Banff Centre for Arts and Creativity in 2017.

After a captivating performance at the 2023 Canadian Folk Music Awards, Buckley and Hannam finally decided to ratify their collaboration and bring The Woodshed to life. Together they bring a beautiful vocal blend of brotherly harmonies combined with gutsy and sophisticated song writing alongside intricate guitar playing.

Opening for The Woodshed will be Naomi Shore.
